DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 – 20 (in part), drawn to the preparation of acylphosphines of formula (I) wherein R1 is not a heterocycle ring, R2 is not a heterocycle ring and R3 is not a heterocycle ring, by reacting the phosphorus halides of formula (II) with the acid halides of formula (III) without isolation of intermediates and with sodium in a solvent in the presence of an activator..

Group II, claim(s) 1 and 4 – 20 (in part), drawn to the preparation acylphosphines of formula (I) wherein R1 or R2 or R3 is a heterocycle ring, by reacting the phosphorus halides of formula (II) with the acid halides of formula (III) without isolation of intermediates and with sodium in a solvent in the presence of an activator. If this group is chosen then there must be an election of a specific heteroring.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. Groups I and II are all different processes for making structurally different compounds by using structurally different materials which various different chemical requirements which include having different solvents and different activators. The process can make phosphines and phosphine oxides. Further, the process of claim is known in the art as exemplified by U.S. 6,888,031 and therefore the claim is not a technical feature that defines a contribution over the prior art.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
